STOMA CARE

ONE PIECE TYPE OSTOMY POUCHES

MatriSurg One Piece Ostomy Bag

BAO-Health CODE: 1207501F

- Lightweight, flexible, one-piece system
- Hydrocolloid adhesive base
- Reusable hook-loop clamp closure which allows for draining
- Integrated bar filter for long-lasting odor management
- For **stoma size upto 75mm**

MatriSurg One Piece Colostomy Bag

BAO-Health CODE: 102BNC

- Lightweight, flexible, one-piece system
- Hydrocolloid adhesive base
- Reusable clamp closure which allows for draining
- Integrated odor barrier
- For **stoma size upto 60mm**

MatriSurg One Piece Ostomy Bag

BAO-Health CODE: 1023TNF

- Lightweight, flexible, one-piece system
- Hydrocolloid adhesive base
- Reusable clamp closure which allows for draining
- Integrated bar filter for efficient odor management
- For **stoma upto 60mm**

MatriSurg One Piece Ostomy Bag

BAO-Health CODE: 10910201F

- Lightweight, flexible, one-piece system
- Hydrocolloid adhesive base
- Reusable clamp closure which allows for draining
- Integrated bar filter for efficient odor management
- For **stoma upto 102mm**

ONE PIECE TYPE OSTOMY POUCHES

MatriSurg One Piece Ostomy Bag BAO-Health CODE: 1117001F

- Lightweight, flexible, one-piece system
- Hydrocolloid adhesive base
- Integrated flexible closure for easy handling and leak protection
- Built-in bar filter for efficient odor management
- For **stoma size upto 60mm**

MatriSurg One Piece Ostomy Bag BAO-Health CODE: 1146001F

- Lightweight, flexible, one-piece system
- Hydrocolloid adhesive base
- Integrated Velcro closure for convenience and reusability
- Built-in bar filter for efficient odor management
- For **stoma size upto 60mm**

MatriSurg One Piece Ostomy Bag BAO-Health CODE: 1146008F

- Lightweight, flexible, one-piece system
- Hydrocolloid adhesive base
- Integrated Velcro closure for convenience and reusability
- Built-in bar filter for efficient odor management
- For **stoma size upto 60mm**

ONE PIECE TYPE CONVEX POUCHES

MatriSurg One Piece Convex Ostomy Bag BAO-Health CODE: 1143200FC/1143400FC

- One-piece system having a convex Hydrocolloid base with belt ears for added support
- Raincoat filter cover design to ensure consistent airflow
- Integrated Velcro closure for convenience and reusability
- For **stoma size upto 32mm**

MatriSurg One Piece Convex Ostomy Bag BAO-Health CODE: 1204400FC

- One-piece system having a convex Hydrocolloid base with belt ears for added support
- Viewing option allows stoma observation
- Raincoat filter design to ensure consistent airflow
- Integrated Velcro closure for convenience and reusability
- For **stoma size upto 44mm**

MatriSurg One Piece Convex Ostomy Bag BAO-Health CODE: 1205700FC

- One-piece system having a convex Hydrocolloid base with belt ears for added support
- Viewing option allows stoma observation
- Raincoat filter design to ensure consistent airflow
- Integrated Velcro closure for convenience and reusability
- For **stoma size upto 57mm**

ONE PIECE CONVEX UROSTOMY POUCHES

MatriSurg One Piece Convex Urostomy Bag BAO-Health CODE: 408570410C

- One-piece system having a convex Hydrocolloid base
- Soft drainage tap for easy, hygienic urine drainage
- Anti-reflux valve to prevent urine backflow
- Water-repellent, rustle-free pouch film
- Integrated odor barrier layer
- Belt tabs for secure stoma belt attachment
- For **stoma size upto 57mm**

MatriSurg One Piece Convex Urostomy Bag BAO-Health CODE: 408440410C

- One-piece system having a convex Hydrocolloid base
- Soft drainage tap for easy, hygienic urine drainage
- Anti-reflux valve to prevent urine backflow
- Water-repellent, rustle-free pouch film
- Integrated odor barrier layer
- Belt tabs for secure stoma belt attachment
- For **stoma size upto 44mm**

ONE PIECE TYPE

INFANT/PEDIATRIC POUCHES

MatriSurg One Piece Infant Ostomy Bag

BAO-Health CODE: 1213200FU

- Lightweight, flexible one-piece system
- Gentle Hydrocolloid adhesive base
- Soft flat pouch with rustle-free, water-repellent film
- Built-in bar filter for reliable odor control
- Velcro closure
- For **stoma size upto 32mm**

MatriSurg One Piece Pediatric Ostomy Bag

BAO-Health CODE: 1155001F

- Lightweight, flexible one-piece system
- Gentle Hydrocolloid adhesive base
- Soft flat pouch with rustle-free, water-repellent film
- Built-in bar filter for reliable odor control
- Velcro closure
- For **stoma size upto 50mm**

MatriSurg One Piece Pediatric Urostomy Bag

BAO-Health CODE: 4025001

- Lightweight, flexible one-piece system
- Gentle Hydrocolloid adhesive base
- Soft bottom tap for easy urine drainage
- Includes night drainage adaptors for uninterrupted use
- Velcro closure
- For **stoma size upto 50mm**

TWO PIECE TYPE 50MM FLANGE

POUCHES

MatriSurg Two-Piece Ostomy Bag

BAO-Health CODE: 2145001F

- Two-piece design allows for easy, hygienic drainage
- Securely attaches to compatible baseplate with Velcro closure
- Belt tabs for convenient stoma belt attachment

MatriSurg Two-Piece Ostomy Bag

BAO-Health CODE: 2145008F

- Two-piece design allows for easy, hygienic drainage
- Securely attaches to compatible baseplate with Velcro closure
- Belt tabs for convenient stoma belt attachment

MatriSurg Two-Piece Urostomy Bag

BAO-Health CODE: 4035001

- Two-piece Urostomy system with soft bottom tap
- Night Drainage Adaptors included for overnight support
- Anti-reflux design to minimize urine backflow
- Belt tabs for secure stoma belt attachment

MatriSurg Two-Piece Urostomy Bag Opaque

BAO-Health CODE: 4035008

- Two-piece Urostomy system with soft bottom tap
- Night Drainage Adaptors included for overnight support
- Anti-reflux design to minimize urine backflow

COMPATIBLE BASEPLATE/FLANGE

BAO-Health CODE: 3015001

- Flange size: 50mm
- Maximum cut upto stoma size 45mm

TWO PIECE TYPE 60MM FLANGE POUCHES

MatriSurg Two-Piece Ostomy Bag

BAO-Health CODE: 2146001F

- Two-piece drainable pouch with Velcro closure
- Securely attaches to a compatible baseplate
- Integrated bar filter for dependable odor management

MatriSurg Two-Piece Ostomy Bag

BAO-Health CODE: 2146008F

- Two-piece drainable pouch with Velcro closure
- Securely attaches to a compatible baseplate
- Integrated bar filter for dependable odor management

MatriSurg Two-Piece Urostomy Bag

BAO-Health CODE: 4036001

- Two-piece Urostomy pouch with soft tap at bottom
- Night Drainage Adaptors included for extended night-time use
- Anti-reflux design to minimize backflow

MatriSurg Two-Piece Urostomy Bag Opaque

BAO-Health CODE: 4036008

- Two-piece opaque Urostomy pouch with soft tap at bottom
- Night Drainage Adaptors included for extended night-time use
- Anti-reflux design to minimize backflow

COMPATIBLE BASEPLATE/FLANGE

CODE: 3016001

- Flange size: 60mm
- Max cut **upto** stoma size 55mm

CODE: 306320110C

- Flange size: 60mm
- Max cut **upto** stoma size 32mm

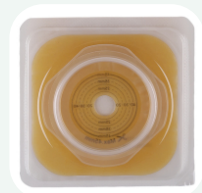

CODE: 303440110C

- Flange size: 60mm
- Max cut **upto** stoma size 44mm

CODE: 3064501

- Flange size: 60mm
- Max cut **upto** stoma size 45mm

TWO PIECE TYPE 70MM FLANGE POUCHES

MatriSurg Two-Piece Ostomy Bag
BAO-Health CODE: 2207001F

- Two-piece drainable pouch with Velcro closure
- Securely attaches to a compatible baseplate
- Belt tabs for convenient stoma belt attachment
